Stocking Center of PAA in Szczodre

The district was founded in 1950 and is one of the largest of the 43 districts of PAA (PZW) in the country. At the end of 2017, the number of associated members of our District was nearly 24,000, affiliated in 100 circles. The organizational structure, authorities and objectives of the Association are defined in the Statutes of the PAA.

In our modern Stocking Center in Szczodre, we run a fisheries economy producing stocking material (24 species) for the purposes of our waters and the Odra river basin. It is hatching or fry (in different stages of breeding), inter alia of the following fish: salmonids - salmon, sea trout, trout, grayling; lowland predatory fish - zander, pike, catfish, and polyphyletic fish - asp, barbell, vimba. We cooperate with Wrocław University of Environmental and Life Sciences, University of Wrocław and the Institute of Inland Fisheries in the field of popular science in the field of fisheries. We also produce fish for the needs of marine areas cooperating with the Ministry of Maritime Economy and Inland Navigation and with the Ministry of Agriculture. Educational youth angling schools with respect to nature protection, ecology and biology are conducted in the area of the Stocking Center.

### **Place of the Championship:**

For the World Championship, we have prepared the channel of Odra river in Wrocław managed by the District of the Polish Angling Association in Wrocław.

The fishing ground is located near the city center. The gentle riverbanks ensure good access to water.

### **Time of Championship:**

Monday, August 20, 2018 – arrival and registration of national teams

Monday, August 20, 2018 – Friday, August 24, 2018 – trainings

Saturday, August 25, 2018 – 1<sup>st</sup> leg of the Coarse Angling World Championship for Ladies

Sunday, August 26, 2018 – 2<sup>nd</sup> leg of the Coarse Angling World Championship for Ladies

## FISHING GROUND DESCRIPTION

The fishing ground is located near the city center. It is the Odra shipping channel with easy access to the riverbank. The bank is lined with stones.

Depending on the water level in the channel, floats with a displacement of 0.5 - 10 g are used. The depth of the fishing ground ranges from 3.5 m to 5.5 m, while its width is from 70 m to 100 m.

The fish most often caught during the competition are shown below. Individual results of around 10000 points are not uncommon in this fishing ground.
