## **COARSE ANGLING YOUTH WORLD CHAMPIONSHIPS** **U15 – U20 – U25**

Welcome, dear angler friends

I am delighted to express on my name and on behalf of the Italian Sport Fishing and Underwater Activities Federation (FIPSA S), the best greetings to all participants at these World Championships that this year are going to take place from July the 30<sup>th</sup> to August 4<sup>th</sup>, in Novi di Modena (MO).

I am sure that all the athletes present, who will join Novi di Modena as well as all the managers, judges and stewards will find a way to explore and appreciate our beauties and enjoy the hospitality of the people from the Region of Emilia-Romagna and all those who have all done efforts to organize this important sport fishing event.

I am particularly delighted to express my warmest welcoming to all in the aim to live together some happy days in the name of sport.

A special “good luck” to all Judges convened to manage this race, in the certainty of their professional and fair commitment they have also expressed in precedent occasions. Finally, I wish to thank the hosting Organizers, the local authorities and all journalists for their support and contribution for this event’s good success.

The FIPSA S President

Here we are again in Cavo Lama di Modena, a competition venue famous for the sport fishing.

In 2007, this venue already hosted the Coarse Angling European Championship and, in that occasion, we had a proof of its great fishery.

I am very excited of returning back to Cavo Lama, keeping memories the great results achieved by the Italian team in that occasion and bearing in mind the successes of our coarse angling national teams and of the Italian Federation in the last seasons.

I am also very delighted of rediscovering these territories, torn by earthquake in 2012, which are however still very beautiful, well managed and as efficient as before. I take this opportunity for thanking all political local authorities and the local FIPSA S as well for their hard work managed over these past years and for organizing this championship.

Here, I can only start with youth, our hopes, by engaging myself for deserving to them, in quality of President of the Surface Fishing Division, a sport fishing rich in values, emotions and fair play.

I am certain that it is going to be a great week of sport, an occasion for launching this discipline among the young world that is always aiming to search for new stimulants and alternatives, but that is sometimes distracted towards fair and affordable opportunities as those ones of the sport fishing.

Chairman of FIPSA S Surface Fishing Division

We are delighted to host the Coarse Angling Youth World Championships 2018, which will be a great occasion for promoting the territory of Novi di Modena, which is recovering since the recent earthquake. We will make all our efforts for setting out a great happening for enhancing the sport fishing, for raising the youth's interest and supporting the environment's culture and defence.

## **PROGRAM**

Novi di Modena is a village of 10,245 citizens in the province of Modena, Emilia-Romagna Region, in the north side of the main city of the Region. It is part of the four Municipalities of the "Terre d'Argine". The village is located inside of the low region of Modena.

The origin of this village belong to the Roman epoch, as it is deduced by archaeological findings.

The village of Novi di Modena was hit by earthquake of Emilia in 2012, which even caused one victim, many damages to industrial and agricultural structures and which endangered some historical buildings, including the tower, symbol of that village.
