INTRODUCTION

The 2015 World Championships will be hosted in Viljandi, an ancient hilly city in South Estonia topped by impressive ruins of a once-powerful Livonian Order castle. Cobbled streets, ancient oak trees and a beautiful lake conjure up a very special atmosphere.

The lake Viljandi lies in the deep primeval valley of Viljandi, depth 11 m, length 4.6 km, width 450 m. The main fish in the lake are bream, roach, perch and pike.

Only 1 small area of the lake will be prohibited for fishing activity - the narrow neck which connects the northern and southern parts of the lake.

The organization will provide you a detailed map.

During these 8th World Championships, the following fish species will be counted:

- **Pike 45 cm**
- **Sander 46 cm**
- **Perch 20 cm**

BOATS / BOAT HIRE

Boats: recommendations

It is required to attend this championship on the Lake Viljandi with a boat that carries at least 4 persons. The engine power is not limited. A reserve in fuel of 5 to 10 liters is necessary on board.

The speed limit on the lake is 30km/h.

Only 2 categories of boats are available:

- boats hired by the Organization**
- boats provided by the Nations**

Boats hired by the Organization

The Organization will make some arrangements for boats to be provided by individual anglers in the area, the boats owners will pilot the boats and will also act as stewards during the championship.

The boat will carry minimum of 4 people and will be equipped with fishfinder and the required life jackets.

The Organization will give at your disposal equal quality boats.

Boats will be driven exclusively by their owner.

Boats will be drawn every morning from Thursday to Sunday before the competition and while the competition. Consequently, duo anglers cannot get the same boat for 4 days.

While pre-fishing, a manager can be on board but he is not allowed to fish. So the boat can welcome the owner, 2 competitors and a manager maximum.

The boats owners will pilot (namely, "drive") the boats and will also act as stewards during the Championship.

The cost amounts to 200 € every day with the fuel included.

With the choice of a location, Nations accept that the Organization cannot be accused of preferential treatment by attributing boats through drawing every morning. All claims concerning the result due to the quality of the boats will not be accepted.

The reservation of the boat must be done before the 30th July 2015.

The Organization will do the best to provide a maximum of boats. But the number of boats must be defined as soon as possible. In case of a lack of boats, Nations will be served by the order of the reservation.

Location and payment must be done directly to the Organization (broneering@kalale.ee) before the 30st July 2015.

Boats provided by the Nations

The Organization reminds that the boats should minimum of 4 people at least with fuel and safety tackle included.

Boats provided by the Nations (ownership or location) can welcome while pre-fishing pilot, 2 competitors and a manager (he is not allowed to fish) which means 4 people maximum.

During the competition, a steward will be drawn every morning on Saturday and on Sunday.

He will set up in the boat provided by the Nations with the 2 competitors but he will not drive or pilot the boat.

OTHER REQUIREMENTS

Boats mooring

All boats, hired by the Organization and provided by the Nations can be moored to a platform reserved by the Organization in the port from Wednesday evening.

From Friday evening, the mooring of all the boats to the reserved platform will be compulsory. The platform will be guarded.

Official Regulation of the FIPSeD

Some general rules of the official regulation of the FIPSeD must be modified to respect some local safety requirements:

Fish size

Fish size will be counted in cm² from:

- Pike 45 cm coefficient x 1
- Sander 46 cm coefficient x 1
- Perch 20 cm coefficient x 1
